

# WHY?

## EVERYONE NEEDS A CHAIR MAT

Chair mats are great for use in the office or at home. Chair mats not only protect your floors, but your floor's warranty. Most flooring manufacturers will void their warranties unless you use a chair mat. That is because, without mats, rolling office chairs damage flooring surfaces. Chair mats protector flooring surfaces from indentations, scuffs and other stains.

Chair mats also make it much easier to move within your workplace. It takes 80% less effort to roll your chair on a mat than on carpet. Chair mats help reduce back pain and leg strain, providing an ergonomic solution for your workplace.

- Rectangular chair mat with lip
- Protects floors and carpet
  - Made from eco-friendly PVC
  - Maximum clarity and transparency
  - Allows easy chair movement
  - Virtually unbreakable
  - 36" x 48"

### GRIPPER BACK

Chair mats with gripper back are for carpeted floors or any other type of soft flooring, choose a mat with small cleats underneath that are specially designed to hold the mat in place without damaging the carpet.

### SMOOTH BACK

Chair mats with smooth back are for hard floor surface, such as hardwood, laminate, vinyl or tile. You will want a mat with a smooth backing that will not damage the floor and keeps the mat from moving.

### FLOOR PROTECTION

Chair mats protect flooring surfaces, extending the life of your flooring!
