THE ULTIMATE  
FLOORING EXPERIENCE

# make your balanced choice

Tarkett's approach to sustainability is all about giving customers simple and clear information so they can make the right choice of flooring, balancing their project and budget requirements beside the need for sustainable solutions.

At Tarkett, sustainability isn't just a theory but something we put in practice everyday in the way we design and make our products. We have focused on four key areas where customers can make a balanced choice:

## 1

Choose to use good materials – natural and renewable where possible

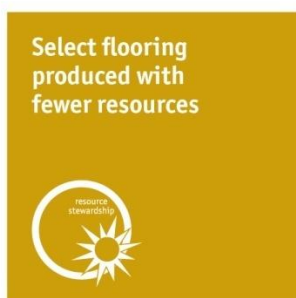

To make a balanced choice, Tarkett gives you detailed information about its flooring and its content. From this you can select more environmentally-friendly products which:

- ☒ have a larger content of natural and/or renewable raw materials
- ☒ include recycled content
- ☒ can be recycled in turn
- ☒ release lower amounts of VOCs helping improve indoor air quality

> You choose sustainable products that contribute to protecting the environment.

## 2

Select flooring produced with fewer resources – we monitor and continuously improve on our consumption of water, energy and the waste we generate

Every Tarkett product is manufactured to the highest environmental standards in facilities certified ISO 9001 and ISO 14001, with regular independent audits to assess environmental risks. We closely monitor five key indicators to ensure we continuously improve in our use of resources:

- ☒ energy consumption
- ☒ water consumption
- ☒ VOC emissions from production
- ☒ waste generation
- ☒ recycling

> You choose products designed and manufactured in an environmentally-responsible way.

## 3

Ensure safer, healthier products that contribute to wellbeing in people-friendly spaces

When you choose a Tarkett product, you take part in our effort to enhance quality of life, particularly by improving air quality inside buildings and homes. For instance, Tarkett products:

- ☒ contribute to the best indoor air quality in the flooring marketplace through reduced VOC emissions
- ☒ reduce the use of chemical cleaning agents and water and energy consumption through unique surface treatments

> You choose products that contribute to continuous improvement in quality of life.

## 4

Reuse and recycle products through participating in recycling or by actively recycling

Your balanced choice also contributes to the continued reuse and recycling by Tarkett.

Since 1966 we have collected post-installation waste from worksites in different countries that is then recycled, along with post-production waste, into new flooring. Tarkett also recycles flooring at the end of its life, collecting materials that are recycled into products that range from road signs to piping. Tarkett recycles over 77,000 tonnes per year.

> Your choice of flooring contributes to reuse and recycling.

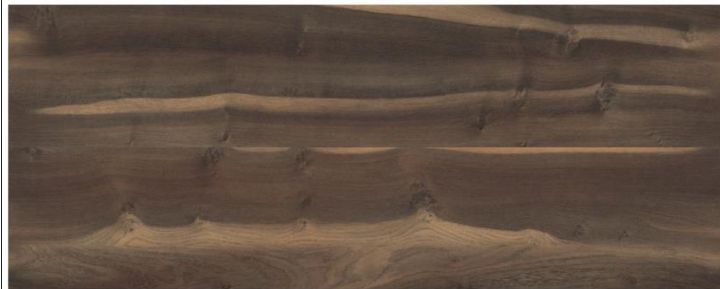

# Infinite 832

## Experience the endless effect in your home!

Infinite large boards have no joints on the short side and are beveled on the long side: this creates a unique endless board effect. You get the impression your floor is made from a single board, cut from a real trunk, so creating a unique natural effect.

Choose from natural oaks or original sapwood decors for an even more genuine wood effect.

# Woodstock 832

## The Oak collection

Oak is the essential wood *par excellence*. Tarkett offers a unique variety of oak decors to create a comfortable, cosy atmosphere to reflect your lifestyle.

Just decide whether you prefer to go for the more traditional beige and honey colours or for the latest grey trends. You can also choose whether you prefer a perfectly smooth surface or if you'd rather have bevels.

Whichever Woodstock decor you select, you'll be fascinated by its genuine wood look: its embossed-in register surface just looks like the real thing!

With Woodstock 832, you are assured you are making the right choice: it is a resistant solution, very easy to maintain and it will keep its looks and quality for many long years.

# Vintage 832

### Does authenticity matter to you?

With Vintage 832, enjoy the feeling of comfortably used and lived-on flooring. With structured finishes and bevels, it is as though men and time have been art-crafting the floor to make it unique, just for you.

Whether you like the nostalgia of hand polished floor or rather enjoy the trendy matt effect of passing time, the Vintage look is for you.

# Polaris Style 832

## Warm up to the soft and modern wooden designs of Polaris Style 832

In light and shade tones, its chocolate and beige wooden decors are incredibly soft and comfortable.

Inspired by the Flamant spirit, the soft touch of cashmere, the vintage feeling of driftwood, the warmth of candles, the cosy atmosphere of a dinner by the fire place, Polaris Style 832 will be the ultimate touch to a cosy, welcoming home.
